# Christmas Message from His Majesty, King Guy I

---

Welcome, citizens and our foreign friends, to my home on Christmas day.

I wish to start by announcing my legislative programme for the year 2008. My focus this year is on development; particularly that of our infrastructure.

My Government will create legislation to enable the enhancement of our international links. Construction of a new central international airport will be paired with new high speed railways, rendering both international and domestic travel faster and easier.

A new agency shall be created with responsibility for transport throughout the Kingdom. This agency will operate, according to service stipulations laid down by Shire Councils, all public transport in the Kingdom.

The agency shall strive to reduce pollution by ensuring that all public transport vehicles, where possible, are powered using

non-polluting methods, such as new 'fuel cell' technology currently under development in GRA facilities.

And now, citizens, my largest announcement. All travel on Veracois public transport shall be without charge to all citizens. My Government considers free travel using non-polluting means the key to a mass reduction in the amount of harmful pollutants being emitted.

Further announcements pertaining to transport are expected over the next few days.

I wish to finish by reminding all citizens of the reason we celebrate this festival, Christmas.

Our Lord came down to Giess 2007 years ago, for the simple purpose of saving mankind.

I urge all people, from across Giess, to hold dear his principles and purpose in the conduct of their lives, for forgiveness is not enjoyed solely by Christians, but by many other religions across the planet.

If there is one thing you can do this year, it is to forgive those amongst us who truly repent, like our Lord came down to do 2000 years ago.

God Bless,  
Guy.
